

# Workshop

## 1½ to 2 Hours

### Introduce Goal

#### Workshop Goal

To effectively present a community information report that can assist a congregation in their mission and ministry efforts.

### Engage Group

- ◆ Distribute page one of the FirstView report and the FirstView worksheet to each participant. Review the location of the area as illustrated on the FirstView report so all are clear on the area being discussed. (5 minutes)
- ◆ Have each person complete their worksheet without consultation from other participants. (10 minutes)
- ◆ Then, in groups of no more than 5, have each group complete a composite worksheet for their group. (15 minutes)
- ◆ Finally, have them put their composite on newsprint and display for all participants to view. (10 minutes)

### Present FirstView

Present pages two through six of the FirstView report. Begin with the theme areas on page two and three. These pages are designed to provoke questions about the themes. Pages four through six provide both narrative and table information for each theme. Highlight and discuss the comparisons between the responses of the participants and the report.

### Group Discussion

- ◆ In the groups formed in step 2, ask them to respond to what they are learning and how it might effect the mission and ministry of their church.
- ◆ Provide examples such as: If the report states that 78% of the population is under 55 and 70% of our worshipping congregation on a given Sunday is over 55 what questions does that pose for our future ministry?
- ◆ Have them list as many questions as possible for each area of the report. Do not allow them to make simplistic statements such as "we need to get more young people."
- ◆ Have each group present their questions and look for themes or focus that they can understand and accept.

### Conclusion

Direct them to an action step that they commit to completing by a certain time and offer them some next steps that can assist them in this process. Set up a timeline of activity and action that results in this activity becoming integrated into the life of the congregation.

# Worksheet

Complete this worksheet before looking at pages 2-6 of the FirstView report.
